SUMMARY

Experienced web developer proficient in HTML, CSS, JavaScript, and React, with a passion for Data Structures and Algorithms in C++. Eager to expand expertise into AI and explore additional frontend frameworks

EXPERIENCE

Web Developer Intern

Alphaved Private Limited

📅 05/2024 - 06/2024 📍 Surat, Gujarat

- Gained extensive experience in web development, focusing on React and building React applications.
- Applied advanced React concepts such as hooks, rendering optimization, and component lifecycle management.
- Demonstrated deep knowledge of HTML, CSS, and JavaScript concepts, applying them in various projects.
- Collaborated with team members to deliver high-quality, responsive web applications.
- Utilized modern web development practices to ensure efficient and scalable code.
- Engaged in continuous learning and applied new technologies to enhance project outcomes.

EDUCATION

Bechelor of Engineering

Madhuben And Bhanubhai Patel Institute Of Technology

📅 09/2021 - Present 📍 Anand, Gujarat

GPA
9.28 / 10

Higher Secondary Education

Modi Science School

📅 06/2019 - 05/2021 📍 Rajkot, Gujarat

CERTIFICATES

📄 **Postman API Fundamental Student Expert, 2024 (Postman)**

PROJECTS

Beyond Classroom

📅 01/2024 - 04/2024

🔗 https://github.com/pritsakhvala/Mini-Project-BeyondClassroom

Developed "BeyondClassroom," a MERN stack application that bridges the gap between academic learning and industry needs by offering project-based assignments. This platform enhances students practical skills and career readiness, addressing traditional education's limitations.

Javascript Amazon Clone

📅 10/2023 - 12/2023

🔗 https://github.com/pritsakhvala/Javascript-Amazon-project

Developed an Amazon clone project using JavaScript, incorporating various JS functions and concepts. Implemented add-to-cart and shipping features, and created a dynamic, responsive website to replicate key functionalities of the Amazon platform.

swines-sprint-game

📅 09/2023 - 10/2023

🔗 swinesprint.netlify.app

Developed a dice-rolling game using HTML, CSS, and JavaScript. The game includes JS logic to generate random numbers, skip the player's turn on rolling a 1, hold values, and win at 100 points.
